

MightyOx™

Professional Grade Wood Splitters

**Rugged
Powerful
Durable**

 Made in the USA

SPLITS MIGHTY BIG WOOD

UP TO
48"

**IT TAKES A
MIGHTY OX™ TO
SPLIT MIGHTY
TOUGH WOOD!**

**JUST LOOK AT
ALL THAT WOOD!**

Wood from urban tree removals
can be a gold mine. With a powerful
Mighty Ox™ splitter, it's almost
like found money.

Mighty Profitable Splitters

IDEAL FOR LANDSCAPE MAINTENANCE AND RENTAL

Mighty Ox™ splitters are compact, powerful and highly portable. They split even huge chunks of waste wood like this into high value firewood. And they do it with ease. There's nothing else like a Mighty Ox.™

Most tree removal companies prefer to get rid of their wood waste without added labor or disposal cost.

"Our Mighty Ox™ helps keep the cash coming in when we're not mowing. The firewood brings top dollar, and our material cost is just about zero."

John Stager, PA

TREE REMOVAL WASTE WOOD

Larger pieces of waste wood from tree service companies cost less. Sometimes it's even free.

Lifts up to 1,200 pounds

MightyOx™
CHUNK-BUSTER

That's just our pet name for the Model L-30

SERIOUS BUCKS!

Ironically, the real money for firewood is in affluent suburbs and cities, close to where most trees are removed.

Loggers take everything 14" and larger up North where most splitters are made.

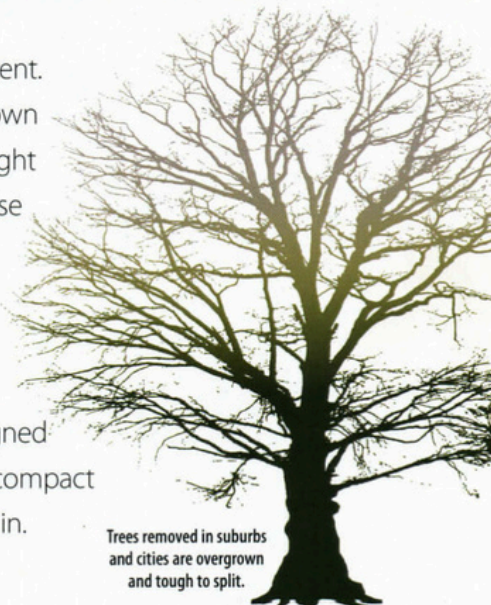

Made for the Kind of Wood Other Splitters Can't Touch

Most wood splitters you can get are made in the North where trees tend to grow tall and straight, ideal for lumber, pulp and

paper. So loggers take everything 14" diameter and larger. Only the smaller pieces are cut for firewood. That's why most log splitters are made to handle the smaller stuff, under 14" diameter.

But city and residential trees are different. By the time they need to be taken down they've grown irregularly and downright gnarly. There's a lot of firewood in those large trunks. But you need a splitter like Mighty Ox™ to do the job. Go ahead and look around. We did.

That's why we don't think you'll find another readily available splitter designed and made like a Mighty Ox.™ It's the compact and powerful splitter with profit built in.

Trees removed in suburbs and cities are overgrown and tough to split.

MIGHTY OX CHUNK BUSTER™

MODEL L-30

Splits the big stuff like it's eating a snack

For splitting
really big logs,
up to 48"
diameter.

Strong enough to split
wood sideways!

For Landscape Crews and Rental

Engineered and built to handle logs up to 48" in diameter, making it perfect for breaking up "city trees" into saleable firewood. Other splitters aren't built for wood over 14" diameter. But that's where the Mighty Ox Chunk Buster really shines. It even lifts those big pieces hydraulically. The Mighty Ox Chunk Buster is compact, powerful, durable and easy to maneuver in tight spaces.

Lifts and
supports up
to 1,200 pounds

Optional
4-way wedge slides
on and off

Dependable Honda engines

Heavy duty hydraulics

User friendly controls

Two-inch ball hitch and safety chains

How Mighty Ox Makes Quality More Affordable

Customers sometimes ask, How can you sell such a high quality splitter at such an affordable price? The answer is simple. We do what we do best, which is design, weld, assemble and paint.

Then we let others do what they do best, like build engines, hydraulics and other off-the-shelf components.

Our efficient manufacturing systems help us put them all together, and there you have it. Mighty Ox™ Splitters: Quality, performance, durability, all for a very reasonable price.

MIGHTY OX HIGH-PRO™

MODEL LS-30

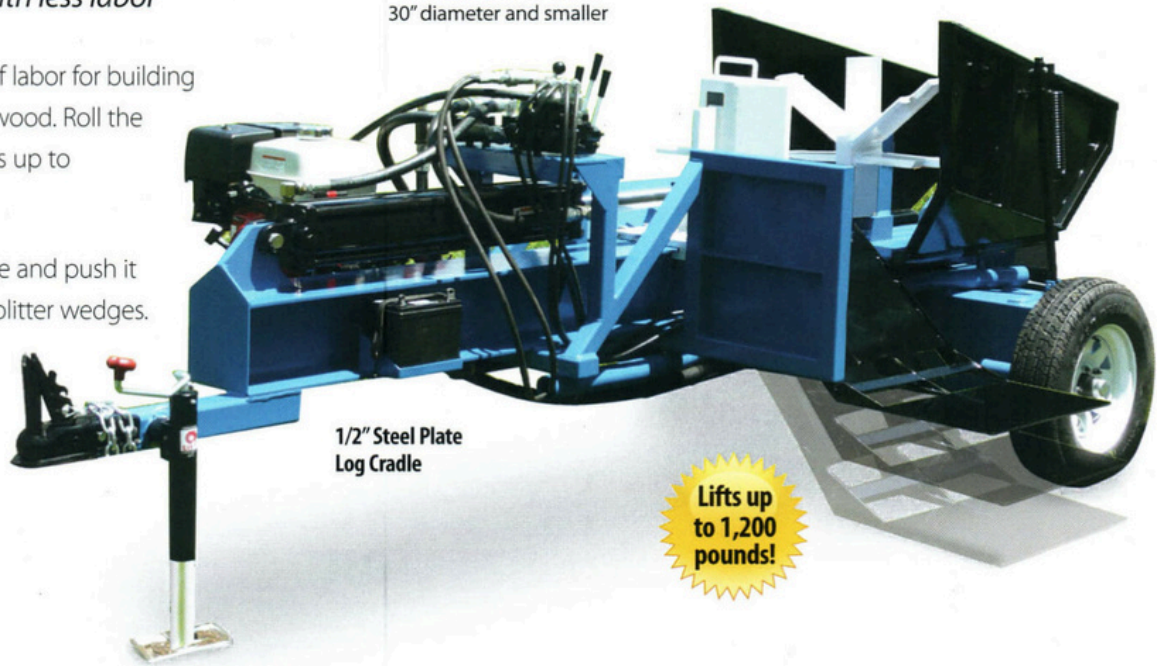

High production splitting with less labor

Get the most out of every hour of labor for building a huge inventory of valuable firewood. Roll the logs onto the lift cradle. It handles up to 1,200 pounds!

Hydraulics lift the wood into place and push it through 2-way, 4-way or 6-way splitter wedges. The patent pending Tension Wings keep split wood from falling to the ground, eliminating another labor step.

Works best with wood 30" diameter and smaller

Tension Wings won't let pieces fall to the ground.

1/2" Steel Plate Log Cradle

Features of the LS-30

Log Lifter handles up to 1,200 lbs. like a feather

Power Wedge for big logs

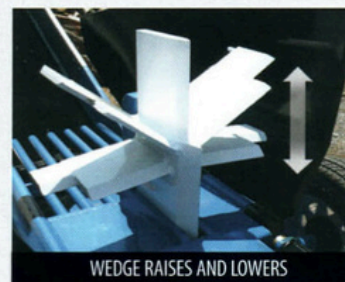

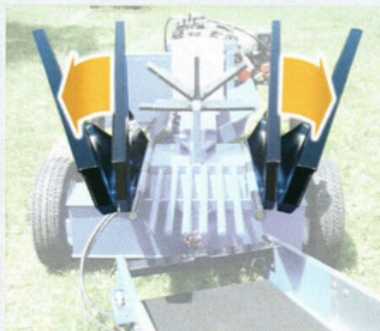

Six-way Wedge for high production

17" removable ram block

Tension Wings keeps wood from falling

WEDGE RAISES AND LOWERS

Dual hydraulics to get more done

MIGHTY OX UP 'N DOWN

MODEL V-20

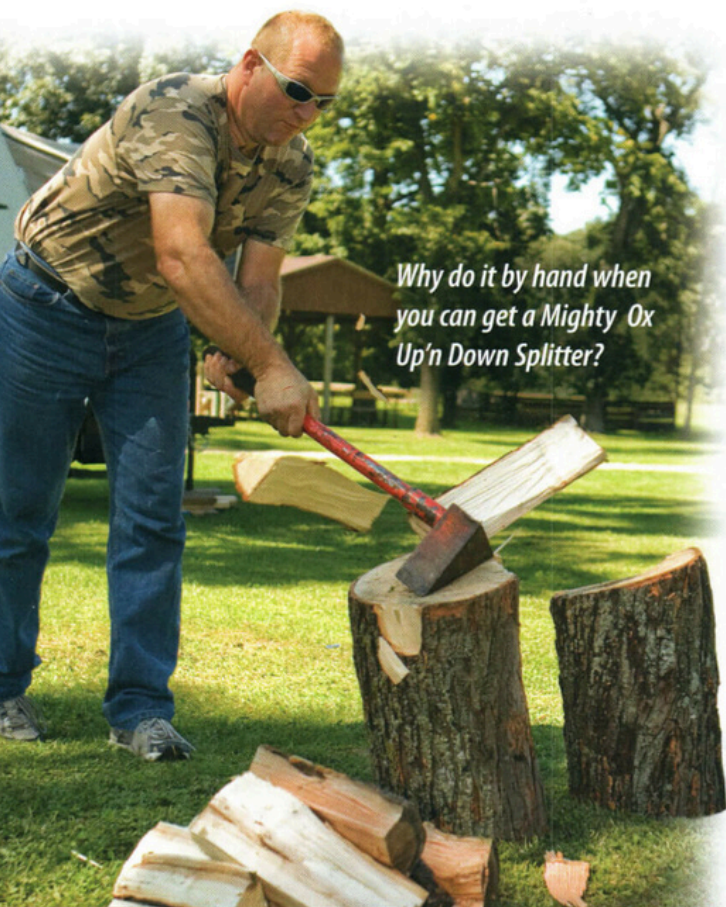

Lighter Duty With Maximum Flexibility

Don't be fooled. When we say "Lighter Duty," we're comparing the versatile Up'n Down with the other Mighty Ox splitters, not other commercially available splitters. What we call "light" is massive compared to any other splitter you can get.

The Mighty Ox Up'n Down is a great entry level splitter for handling a wide range of pieces, from 30" diameter to less than 14" diameter.

Large pieces never leave the ground. Instead, the splitter is raised to the vertical position, and drives the wedge from the top down. Split pieces simply fall at your feet.

For smaller pieces that are more easily handled, the horizontal position works at waist level. The Mighty Ox Up'n Down is easy to transport and store.

Why do it by hand when you can get a Mighty Ox Up'n Down Splitter?

Single wedge splits logs up to 27" long.

Optional 4-way wedge slides on.

Split the easy ones at waist level. Split the big ones on the ground.

MIGHTY OX ELEVATOR CONVEYOR

MODEL E-20

Load a truck or build a pile of firewood inventory

When splitting large quantities of firewood you need to store it as it comes from the splitter. That's where the Mighty Ox Elevator Conveyors come in handy. Build a firewood pile as your inventory supply, or fill a truck for transport. However you organize your firewood production, Mighty Ox has equipment to help.

Engine Drive available for use as stand-alone unit

We build Elevator Conveyors up to 28' in length. Maximum height discharge is 17'.

A view showing how the Mighty Ox High Pro™ is positioned to feed the Elevator.

**Two sizes
of Elevator
Conveyor**

Model E-20 is 20' in length and lifts wood up to 12' from the ground.

Model E-28 is 28' in length and lifts wood up to 17' from the ground.

**All Mighty Ox Wood
Splitters come with a
1-Year Limited Warranty**
